OBJECTIVE

I am looking for an internship or a job opportunity as a Web Developer. I would like a friendly environment, where I can practice and further develop the practical skills acquired during my AEC Internet Programming & Development program at John Abbott College. I am a creative person; with my many years of data entry specialist and as a salesman I am ready to offer loyalty, dedication and hard work to my employer.

SKILLS / TECHNOLOGIES

- HTML5, CCS3, JavaScript, PHP, Bootstrap, XML, jQuery, Bulma
- MySQL, Access, MS SQL Server
- Micro-framework PHP Slim, Twig,
- C#, .Net, WPF, XAML
- Java, Enterprise Java Beans
- NetBeans, Visual Studio Community, Sublime
- Dream Weaver CS6
- GitHub, Bitbucket, Source Tree, XAMPP, Apache
- Scrum, Trello
- Ability to interact with the stakeholders and understand user needs
- Autonomy to find solutions
- Strong communication, interpersonal, and presentation skills
- Strong troubleshooting and problem solving skills with an analytical mindset
- Fast learner with strong time management and multi-tasking skills
- More than ten years of user support experience
